## INTERNSHIP

### Frontend Developer Intern- Appwars Technologies February 2024 – May 2024

- Worked on frontend development projects using HTML, CSS, and JavaScript, focusing on UI design and responsiveness.
- Collaborated with team members to design interfaces and improve usability for client projects.
- Optimized reusable UI components and enhanced web pages for faster load times and better performance.
- Ensured cross-browser compatibility and mobile responsiveness using modern CSS frameworks.
- Engaged in debugging and troubleshooting UI/UX issues to enhance user experience.

## PROJECTS

### E-learning Website

*HTML, CSS, JavaScript, Bootstrap* February 2025 - Present

- Optimized a responsive and visually appealing educational website with modern UI/UX design.
- Implemented interactive content sections, including quizzes, animations, and video integration.
- Ensured smooth navigation and optimized performance for an enhanced user experience.

### Invisible Disabilities Database Management System

*DBMS* November 2024

- Developed a robust database system to support individuals with invisible disabilities, utilizing advanced SQL for data management and analysis.
- Designed and implemented structured data models, ensuring accessibility and data integrity.
- Created detailed queries and reports to generate actionable insights, demonstrating expertise in SQL and problem-solving for real-world challenges.
