Education

Lovely Professional University

Master of Computer Applications (MCA) – CGPA: 7.16 / 10

Jalandhar, Punjab

2024 – 2026

Gopal Narayan Singh University

Bachelor of Computer Applications (BCA) – CGPA: 7.13 / 10

Sasaram, Bihar

2021 – 2024

R K +2 Rahmania High School

Intermediate in Science – Percentage: 78.0%

Haidarnagar, Jharkhand

2019 – 2021

Technical Skills

Languages: Java, JavaScript (ES6+), C++

Backend & DB: Node.js, Express.js, REST APIs, MySQL, MongoDB, SQL Server, JDBC

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite, Recharts

Tools & Platforms: Git, GitHub, Docker, Kubernetes, CI/CD, VS Code, Postman, Vercel, Render

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), DBMS, Operating Systems (OS), Computer Networks (CN)

Experience

Frontend Development Intern

Feb 2024 – May 2024

Appwars Technologies

- Coded 10+ interactive user interface components using JavaScript, increasing user interaction metrics by 20%.
- Standardized styling layouts by writing modular React elements, shortening UI deployment workflows by 15%.
- Overhauled layout structures to ensure cross-device styling parity across 5+ unique viewport sizes.

Projects

PrepTrack – DSA Prep Tracker & Progress Visualizer | [GitHub](#) | [PrepTrack](#)

Apr 2026 – May 2026

Backend & Web Technologies: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Recharts, JWT, Axios, Git

- Engineered a MERN-stack progress logging dashboard featuring custom parsers to scrape and index external coding problem metadata, eliminating 80% of manual entry friction.
- Optimized client-server synchronization by implementing event-driven window hooks instead of continuous polling loops, reducing client-side processor workload by 40%.
- Orchestrated interactive analytics charts utilizing Recharts to render performance stats, secured via custom JWT tokens and salted bcrypt hashing.
- Deployed the full-stack containerized codebase to cloud servers with continuous integration pipelines, ensuring uninterrupted deployment availability.

LearnX – E-Learning Frontend | [GitHub](#) | [LearnX](#)

Sep 2025 – Oct 2025

Frontend Technologies: HTML5, CSS3, JavaScript, Bootstrap

- Architected a mobile-first online education portal using semantic HTML and Bootstrap grids, establishing a solid layout base.
- Accelerated page navigation and interface rendering by refactoring DOM interactions using native JavaScript event listeners.
- Authored highly modular CSS rule sets with responsive design patterns, securing consistent visuals across diverse viewports.

FinTech Bridge – Banking Application

Feb 2025 – May 2025

Development Framework: Java, JDBC, SQL Server, OpenRouterAI API, IntelliJ IDEA

- Constructed a standalone banking dashboard in Java to aggregate transaction histories and manage account entities.
- Modeled relational database schemas in SQL Server utilizing JDBC drivers to execute queries with ACID compliance.
- Integrated AI-driven conversational helpers using OpenRouterAI service integrations to answer customer queries instantly.
- Formulated clean JUnit test suites to check transaction calculations under edge cases, reducing software regression risks.

Certifications

Full Stack Web Development | [Certificate Link](#)

May 2025

Frontend Developer Internship | [Certificate Link](#)

May 2024

TCS National Qualifier Test (TCS NQT) | [Certificate Link](#)

Oct 2023
