Internship

Frontend Development Intern

Feb' 2024 – May 2024

Appwars Technologies

Frontend Technologies: HTML5, CSS3, JavaScript, React.js, Responsive Design

- **Programmed** 10+ interactive UI components using JavaScript, improving end-user engagement by 20%
- **Developed** reusable React interface elements to standardize codebase styling, reducing development time by 15%
- **Refactored** legacy CSS structures to guarantee seamless responsiveness across 5+ distinct device types

Projects

PrepTrack – DSA Prep Tracker & Progress Visualizer

May 2026 – present

Backend & Web Technologies: MongoDB, Express.js, React 19, Node.js, Vite, Tailwind CSS, Recharts, JWT, Axios, Git

- **Engineered** a MERN-stack application with a Cheerio parser to automate question metadata extraction, reducing user logging overhead by 80%
- **Streamlined** client-side synchronization using event-driven window triggers to replace polling loops, decreasing CPU overhead by 40%
- **Orchestrated** dynamic Recharts performance dashboards and secured login pathways via JWT authentication and bcrypt credential encryption

LearnX – E-learning Website

Sept' 2025 – Oct' 2025

Frontend Technologies: HTML5, CSS3, JavaScript, Bootstrap

- **Architected** a clean frontend interface for an online education platform utilizing semantic HTML5 and modern CSS3 styling
- **Implemented** a mobile-first responsive layout using the Bootstrap grid, ensuring consistent navigation across multiple viewports
- **Enhanced** client-side interactions and DOM manipulation with modular JavaScript code to improve user experience

FinTech Bridge: Empowering Banking Through Digital Innovation

Feb' 2025 – May 2025

Development Framework: Java Swing, JDBC, SQL Server, IntelliJ IDEA, OpenRouterAI API

- **Built** a secure desktop banking system using Java Swing to process transaction history and manage customer accounts
- **Connected** the OpenRouterAI API into the backend services to generate automated, real-time banking support responses
- **Designed** database tables in SQL Server, utilizing JDBC to perform secure CRUD operations with zero data loss

Certificates

Full Stack Web Development

May 2025

Apna College — [Certificate link](#)

Frontend Developer Internship Completion Certificate

May 2024

Appwars Technologies — [Certificate link](#)

TCS National Qualifier Test

Oct' 2023

Tata Consultancy Services — [Certificate link](#)

Technical Skills

Programming Languages:	Java, JavaScript
Frontend:	HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Vite, Recharts
Backend:	Node.js, Express.js, REST APIs, JWT Authentication, bcryptjs
Database:	MongoDB, MySQL
Tools & Platforms:	Git, GitHub, VS Code, Postman, Vercel, Render
Core Concepts:	Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS
Additional Knowledge:	Familiar with Linux, Docker, AWS basics, and CI/CD concepts

Education

Lovely Professional University

Jalandhar, Punjab

Master of Computer Application; CGPA: 7.16

2024 – present

Gopal Narayan Singh University

Sasaram, Bihar

Bachelor of Computer Application; CGPA: 7.13

2021 – 2024

R K + 2 Rahmania High School

Haidarnagar, Jharkhand

Intermediate with Science; Percentage: 78.0%

2019 – 2021
